DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 21-40 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-20 respectively of U.S. Patent No. 6,587,682. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of 6,587,682 contain all limitations of claims 21-40 of the instant application.

Claim Rejections - 35 USC § 103

3. Claims 38-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shoji (U.S. 5,987,658) in view of Braun et al. (U.S. 5,864,626).

With respect to claim 38, Shoji discloses a system with a means, element number 1a, for receiving a signal representative of acoustic information from a remote endpoint (Column 5, lines 4-9). Shoji discloses a means, element numbers 2 and 2a, for filtering the signal to produce component signals, which relative to each other must either a low and high frequency component (Column 5, lines 9-15). Shoji discloses transmitting the high frequency component signal with transceiver element number 8 (Column 5, lines 26-30). Shoji further discloses reproducing the acoustic information represented by the low frequency component signal at an audio driver, element number 3a, and speaker 5 (Column 5, lines 30-37). Shoji does not disclose transmitting the signal over a wireless channel. However, Braun et al. disclose a system of transmitting parts of a signal to another location via a wireless channel (Column 3, lines 7-16). Therefore, it would be obvious to one of ordinary skill in the art at the time of the applicant's invention to use Braun et al.'s technique of transmitting over a wireless channel in the system of Shoji in order to remove the need for wires.

With respect to claims 39-40, Shoji discloses delays that can adjusted according to different criteria (Column 5, lines 10-13).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
